Subject: Inquiry About Internship Opportunities at AWS

Dear AWS Recruitment Team,

I hope this message finds you well. My name is Bruneez Apollis, and I am a final-year ICT student with a strong interest in cloud computing, software development, and data systems. I have been following AWS's innovative contributions to the tech industry, particularly in the areas of cloud infrastructure and scalable computing solutions, and I would love to be part of such a dynamic environment.

I am reaching out to enquire whether AWS offers any internship or job-shadowing opportunities for students who are eager to learn and gain hands-on experience in cloud-based technologies. I have developed technical skills in Java, SQL, and application development, and I am passionate about expanding my knowledge of cloud platforms and real-world IT applications.

I would appreciate any information you could share about potential opportunities or the application process. Thank you for your time and consideration I look forward to the possibility of contributing to your team and learning from AWS professionals.

Kind regards,

Bruneez Apollis
